

NCP10672 Flyback Converter

Universal AC Mains, Up to 4.8 Watt Isolated Power Supply

EVAL BOARD USER'S MANUAL

Overview

This evaluation board manual describes a simple and low power (up to 4.8 W) flyback converter designed to be operated in universal input lines. The converter provides constant voltage multiple outputs. The supply can be used for powering utility electric meters, white goods or similar industrial equipments where isolation from the AC mains is required. The main benefits of provided solution are high efficiency, cost effectiveness and low no-load power consumption. The converter is utilizing monolithic ON Semiconductor switcher NCP10672 integrated with $R_{DS(on)}$, 12 Ω MOSFET in a SOIC 7 package. The evaluation board manual provides complete circuit diagram and bill of materials.

Key Features

- Universal AC Input Range (90 ~ 264 Vac)
- Very Low No-load Power Consumption

- Skip-Cycle Operation at Low Peak Currents Only
- Frequency Jittering for Better EMI Signature
- Current-Mode Fixed Frequency Operation – 100 kHz
- Input Filter for Conducted EMI Attenuation

Circuit Description

The Flyback converter is composed of the high voltage switching regulator U1, transformer T1, freewheeling diode D8, D9. Electrolytic-Capacitor EC1, EC4, EC5 and EC6 are used as the output filtering and energy storage. Resistor R12, R13, capacitor C5 and diode D4 are forming voltage clamp for the switcher drain. Opto-coupler U2, and shunt regulator U3 is used in feedback network. Resistors R8 and R9 form resistive divider and sets output voltage. Diode D6 and elector-capacitor EC3 provide supply voltage for U1 V_{cc} from auxiliary winding.

Table 1. GENERAL INFORMATION

Parameter	Value
Input Voltage Range	90 Vac to 264 Vac
Output Voltage	12 V
	5 V
Maximum Output Current	300 mA [12 V]
	250 mA [5 V]
Output Power	4.8 W
Operating Frequency @ Full Load Condition	100 kHz
Input Protection	Fuse
Operating Temperature Range	0°C to + 50°C
No-load Power Consumption	< 50 mW over whole input lines

NCP10672F12GEVB

Transformer Specification

EE1614 which has 18.4 mm^2 of effective area is utilized for small form factor flyback converter design. In order to minimize leakage inductance, the primary winding was splitted on either side of the secondary to make primary winding as close as possible with secondary winding and the triple insulated wires for secondary winding were used to be able to maximize all windings in bobbin window length.

Figure 4. Core and Bobbin Dimension

Table 3. TRANSFORMER WINDING METHOD

Winding	Pin (S → F)	Wire	Turns	Winding Method
N _{P-1}	3 → 2	0.15 ϕ	88 Ts	Solenoid Winding
Insulation: Polyester Tape t = 0.025 mm, 3 Layers				
N _{S-1}	10 → 8	0.2 ϕ [TIW]	9 Ts	Solenoid Winding
N _{S-2}	8 → 6	0.2 ϕ [TIW]	8 Ts	Solenoid Winding
Insulation: Polyester Tape t = 0.025 mm, 3 Layers				
N _{P-2}	2 → 1	0.15 ϕ	43 Ts	Solenoid Winding
Insulation: Polyester Tape t = 0.025 mm, 3 Layers				
N _A	4 → 5	0.15 ϕ	14 Ts	Solenoid Winding
Insulation: Polyester Tape t = 0.025 mm, 3 Layers				

NOTE: Design parameters: $L_p = 1.15 \text{ mH}$ at pin 1 – 3, $f = 100 \text{ kHz}$

onsemi, **onsemi**, and other names, marks, and brands are registered and/or common law trademarks of Semiconductor Components Industries, LLC dba "**onsemi**" or its affiliates and/or subsidiaries in the United States and/or other countries. **onsemi** owns the rights to a number of patents, trademarks, copyrights, trade secrets, and other intellectual property. A listing of **onsemi**'s product/patent coverage may be accessed at www.onsemi.com/site/pdf/Patent-Marking.pdf. **onsemi** is an Equal Opportunity/Affirmative Action Employer. This literature is subject to all applicable copyright laws and is not for resale in any manner.

The evaluation board/kit (research and development board/kit) (hereinafter the "board") is not a finished product and is not available for sale to consumers. The board is only intended for research, development, demonstration and evaluation purposes and will only be used in laboratory/development areas by persons with an engineering/technical training and familiar with the risks associated with handling electrical/mechanical components, systems and subsystems. This person assumes full responsibility/liability for proper and safe handling. Any other use, resale or redistribution for any other purpose is strictly prohibited.

THE BOARD IS PROVIDED BY ONSEMI TO YOU "AS IS" AND WITHOUT ANY REPRESENTATIONS OR WARRANTIES WHATSOEVER. WITHOUT LIMITING THE FOREGOING, ONSEMI (AND ITS LICENSORS/SUPPLIERS) HEREBY DISCLAIMS ANY AND ALL REPRESENTATIONS AND WARRANTIES IN RELATION TO THE BOARD, ANY MODIFICATIONS, OR THIS AGREEMENT, WHETHER EXPRESS, IMPLIED, STATUTORY OR OTHERWISE, INCLUDING WITHOUT LIMITATION ANY AND ALL REPRESENTATIONS AND WARRANTIES OF MERCHANTABILITY, FITNESS FOR A PARTICULAR PURPOSE, TITLE, NON-INFRINGEMENT, AND THOSE ARISING FROM A COURSE OF DEALING, TRADE USAGE, TRADE CUSTOM OR TRADE PRACTICE.

onsemi reserves the right to make changes without further notice to any board.

You are responsible for determining whether the board will be suitable for your intended use or application or will achieve your intended results. Prior to using or distributing any systems that have been evaluated, designed or tested using the board, you agree to test and validate your design to confirm the functionality for your application. Any technical, applications or design information or advice, quality characterization, reliability data or other services provided by **onsemi** shall not constitute any representation or warranty by **onsemi**, and no additional obligations or liabilities shall arise from **onsemi** having provided such information or services.

onsemi products including the boards are not designed, intended, or authorized for use in life support systems, or any FDA Class 3 medical devices or medical devices with a similar or equivalent classification in a foreign jurisdiction, or any devices intended for implantation in the human body. You agree to indemnify, defend and hold harmless **onsemi**, its directors, officers, employees, representatives, agents, subsidiaries, affiliates, distributors, and assigns, against any and all liabilities, losses, costs, damages, judgments, and expenses, arising out of any claim, demand, investigation, lawsuit, regulatory action or cause of action arising out of or associated with any unauthorized use, even if such claim alleges that **onsemi** was negligent regarding the design or manufacture of any products and/or the board.

This evaluation board/kit does not fall within the scope of the European Union directives regarding electromagnetic compatibility, restricted substances (RoHS), recycling (WEEE), FCC, CE or UL, and may not meet the technical requirements of these or other related directives.

FCC WARNING – This evaluation board/kit is intended for use for engineering development, demonstration, or evaluation purposes only and is not considered by **onsemi** to be a finished end product fit for general consumer use. It may generate, use, or radiate radio frequency energy and has not been tested for compliance with the limits of computing devices pursuant to part 15 of FCC rules, which are designed to provide reasonable protection against radio frequency interference. Operation of this equipment may cause interference with radio communications, in which case the user shall be responsible, at its expense, to take whatever measures may be required to correct this interference.

onsemi does not convey any license under its patent rights nor the rights of others.

LIMITATIONS OF LIABILITY: **onsemi** shall not be liable for any special, consequential, incidental, indirect or punitive damages, including, but not limited to the costs of requalification, delay, loss of profits or goodwill, arising out of or in connection with the board, even if **onsemi** is advised of the possibility of such damages. In no event shall **onsemi**'s aggregate liability from any obligation arising out of or in connection with the board, under any theory of liability, exceed the purchase price paid for the board, if any.

The board is provided to you subject to the license and other terms per **onsemi**'s standard terms and conditions of sale. For more information and documentation, please visit www.onsemi.com.
